* Corresponding Author

Journal of Platform Technology (JPT) aims to promote interdisciplinary research in platform technologies and other applied fields in mathematics, engineering and sciences to investigate specific methodologies and develop technologies that will contribute to the development of the future infrastructure.

We are honored to feature eight articles for the last issue in third volume of JPT as below:

- *Building a notification based test-bed for second battery pin testing*
by Yunhee Kang
- *Face representation using multiple codebook learning: three thin books are better than a thick one*
by Suwon Lee
- *Hardware design of MIPI C-PHY compatible CSI-2/DSI Rx interface*
by Gi-woong Shin, Young-hyung Kim, Dong-Gyu Jeong Yong-hwan Lee
- *Efficient object-based distributed image search in wireless visual sensor networks*
by Seungmin Rho
- *Way for detecting the walking direction of pedestrian in the shadowing zone using partitioning the frame and analyzing the histogram change*
by Bonggen Gu
- *PID self-tuning for steering position control of mobile robot*
by Se-Jun Park
- *Memory-efficient integer Fourier transform for lattice cryptography*
by Sangook Moon
- *Generating diverse report documents with byproducts on software process*
by So Young Moon, R. Young Chul Kim
- *Historical dynamics of cyber security and framework formation between the U.S and China*
by Kyungmin Ko, Young-Ae Jung
- *Development of location based real-time safety system for mountain area*
by Jiwon Wee, Daesik Ko, Seokil Song

We believe that these articles have good quality and the relevance that we expect for developing JPT. Finally, we would like to thank all authors, reviewers, and members of the editorial board of JPT. Authors are welcome to submit papers relevant to the scope of the JPT (Journal of Platform Technology) at any time. The JPT submissions and reviews are conducted via journal submission system which is available at <http://jpt.ictps.org/>. We also welcome proposals for Special Issues, which should be submitted to the EiC (Editor-in-Chief; Prof. Dae Sik Ko). The journal's website is <http://jpt.ictps.org/> and online articles are available at the website in PDF format.
